

## Steel Vertical Dumbbell Rack Weight Stand

RRP: \$314.95

Bring order to the chaos of your hex and round dumbbells with the Steel Vertical Dumbbell Rack. No more cluttered workout areas. Stash all your weights on this compact rack.

The rack is machined from gym-tough 14-gauge steel and is finished in an attractive heavy-duty chrome plating. Rubber caps on the legs give the stand stability, even on slick hardwood floors, and plastic inserts in each weight groove protect the dumbbells and the rack from dents and dings. A total of 12 weights can be stored on the pyramidal rack for a total capacity of 113kgs (250lbs). Slots are engraved with weight numbers for easy identification.

Assembly is required, and straightforward instructions are included in your package.

Say goodbye to messy workout areas with the gym-quality organisation of the Steel Vertical Dumbbell Rack.
