

## PU Leather Massage Chair Recliner Ottoman Lounge Remote

RRP: \$944.95

### Massage Recliner with Footrest - Black

Relax after a long day or take a break to reinvigorate yourself with the Massage Recliner with Footrest. Put your feet up on the footrest and let the recliner's vibrating motors massage your worries and your aches away.

The massage recliner is plush and comfortable, and comes complete with an equally-plush footrest. Because the chair is reclinable, you can enjoy your massage seated or you can lay back and put your feet up.

Eight separate vibration motors — 4 on the seat back, 2 on the seat itself, and 2 on the footrest — work together to massage your entire body, unleashing tension and giving attention to tired muscles. And the best part is just how customisable your experience is, courtesy of a convenient remote control. Independently control motors, or "set it and forget it" with an auto feature. Set the intensity of the massage to high, medium, or low. There's even a timer to set 15-minute or 30-minute sessions. It's all up to you.

The massage recliner is made with comfortable PU Leather that's easy to clean. Classic black will go with any decór. The wooden base of both the recliner and the footrest are equally attractive and modern in a curved cappuccino-coloured wood.

Relax, unwind, and give yourself the end-of-day treat you've always wanted. Purchase your Massage Recliner with Footrest today.
