

Dog Car Back Seat Cover Hammock Waterproof

RRP: \$59.95

Protect your car seats from unwanted pet stains in the winter with a hammock style cat seat cover for dogs.

You love your dog but you don't want him to damage or soil your car. Now you can protect your car's upholstery from dog hair, drool, dust, dirt and scratches while travelling with your pet.

The cover also offers an important safety feature. Stop your dog from leaping from the back to the front seat at just the wrong moment. You can prevent accidents that result from an excited dog trying to get to his master by attaching the cover to front and rear headrests which creating a barrier between the front and back seats.

Keep your dog safe in the back seat by preventing slipping and sliding. The car seat cover is ideal for larger dogs, and adjusts to fit most vehicles including cars, extended cab trucks, mini-vans and SUVs. For easy cleaning of hair, dirt and dander, you merely have to shake out or brush off the Back Seat Hammock Cover.

It is quick and easy to attach the hammock car seat cover. Its buckles are designed to attach to your headrest or seat belt fasteners. It is as simple as 1-2-3: set the cover on the seat, attach the buckle enclosure around the headrest, and tuck in the sides.

Specifications:
