

## Super Hero Fancy Dress Inflatable Suit - Fan Operated Costume

RRP: \$119.95

Inflatable Super Hero Suit - Fan Operated Costume

No party is safe without a Super Hero. Save the day and crash the party wearing our Inflatable Fan-Operated Super Hero Costume. You'll be comfortable in this costume made of feather-light material. Just keep in mind not to leap tall buildings because the feathers won't help you fly - they'll just make you feel cozy. Note of caution: Keep this super hero away from the chips and dip.

This durable, one-size-fits-all costume is constructed of an extremely light polyester material called terylene. It is a "super" material that keeps you cool and free of perspiration. Included with the costume is a compact fan unit that keeps the costume inflated and never lets it droop. The battery pack clips to your pants or belt under the costume. The batteries will keep you "inflated" for at least several hours.

Swoop into another dull party and come to the rescue of the guests wearing your Super Hero costume. You will be the center of attention and a good time will be had by all - even ordinary humans.
