Inflatable Gorilla Suit - Fan Operated Costume

Bring a little bit of the jungle to the next party you attend. Crash the party wearing our Inflatable Fan-Operated Gorilla Companion Costume. The gorilla will ride in on your back and, like a good gorilla, stay there all night. But he won't be a burden and you'll be comfortable. He's made of feather-light material. You'll be the center of attention and every party guest will be intrigued by your ride-along pal.

This durable, one-size-fits-all costume is constructed of an extremely light polyester material called terylene. This high quality material keeps you cool and free of perspiration. Included with the costume is a compact fan unit that keeps the costume inflated and never lets it droop. The battery pack clips to your pants or belt under the costume. The batteries will keep you "inflated" for at least several hours.

Liven up the next party with our blue and red "furry" friend. This Inflatable Gorilla costume will be the center of attention and a good time will be had by all. Your gorilla friend will be a roaring success!
