

Two-Door Office Gym Shed Storage Lockers

Out of Stock: \$324.95

2-Door Storage Lockers

A great solution for those places where you need extra secure storage, the all-steel 2-Door Storage Locker is an attractive and durable addition to home, school, or office.

The two vertically-stacked lockers provide ample room for any number of personal belongings, from textbooks at school to office supplies at work and anything in between.

The locker is constructed with solid cold-rolled steel plate for excellent sturdiness and durability, not to mention an attractive look. The steel is also powder-coated to resist corrosion. The locker measures 180 x 38 x 45 cm, and the maximum recommended weight capacity is approximately 30kg per locker. Privacy and security are assured with a simple lock and key design. There are spaces designated for labels to help identify lockers, and air vents are built-in to assure sufficient ventilation. Each lock comes with 2 keys.

For even more storage, consider buying two or more units, which can be placed together for a fully customisable configuration.

A simple design makes assembly easy, and your locker could be up and ready in about 10 minutes. Full assembly instructions are included.

For a handy place to store most anything that won't take up too much room, consider the 2-Door Storage Locker for you, your employees, or your students.
