

Pro Mechanic Folding Bicycle Repair Stand

RRP: \$269.95

Repairing and adjusting your bike will be easy and convenient with this sturdy bike repair workstand!

This is a must have for every bicycle owner. This bike workstand holds a maximum of 66 pounds (30kg). Your bike is held safely in place by the stand's heavy duty clamps that are designed to avoid damage to your bike's finish. The "Work Horse" clamps rotate 360 degrees on two axes and fit standard tube frames between 1" to 1.5".

This great workstand is designed with your convenience in mind. It comes with a tool tray equipped with a magnetic strip so you can keep your hardware in plain sight. You can choose to make your stand a permanent fixture by securing the pre-drilled feet to the floor. Or you can choose to use the stand when you need it and fold it away when you've finished your repairs. Your bike can be locked in any position so that you can have easy and safe access to the area you need to work on. The stand features an adjustable handlebar rod that stabilizes your bicycle's front wheels for easy fix-ups.

This bike stand is strong, safe to use, lightweight and easy to store away.
