

## Palermo King 25cm Gel Memory Foam Mattress - Dual-Layered - CertiPUR-US Certified

RRP: \$1,584.95

Dual layers of comfort mean a twice as nice sleeping experience on a Palermo mattress. Our new double layered design combines comfort and firmness in a durable mattress that will give you a better night's sleep.

### Revolutionary Design, Unmatched Comfort

Our Palermo mattress design packs layers for both comfort and firmness into a 25-centimetre thick profile. We start with a 4.3 centimetre thick layer of memory foam. Memory foam adjusts to fit the natural contours of each individual body type for perfect comfort. The special Palermo design which utilises a revolutionary cell type structure will prevent permanent body shapes left in the foam.

We lay the memory foam atop a twenty-one centimetre thick foundation of high-density support foam to combine pressure relieving features with a good medium firm feel.

You can trust the strength and durability of our support foam. We received a CertiPUR-US seal of approval for safety and performance.

### Built for Comfort Even in the Warm Seasons

The memory foam does more than just give your body a perfectly contoured sleeping surface. Our Palermo mattress has memory foam uniquely designed for temperature regulation and breathability. We designed it to include heat capturing gel that will help to prevent a buildup of body heat in warm temperatures.

Over the top of the memory foam, we add the revolutionary OEKO-100 compliant blend fabric cover. It enhances breathability by creating an air layer while also reducing moisture.
