

45cm - 1 Pair Dumbbell Bar 25mm Diameter - PVC Coated Dumbbell Handle

RRP: \$34.95

This set of high-quality dumbbell bars from Randy & Travis Machinery features a PVC-coated steel dumbbell handle for easy grip. 45cm long with a 25mm diameter, these bars are great for all-around fitness training, weightlifting, bodybuilding, or cross training upper body strength for another sport.

Use these dumbbell bars with standard weight plates with 26.5mm standard hole diameter. They come with two spin-lock collars to fasten the plates in place for ease of lifting. The handles have slip-resistant indentations for better stability and grip.

Buy a set of these quality standard dumbbell bars for home or gym for a top-quality workout.
