

Shelf Floor Lamp - Shade Diffused Light Source with Open-Box Shelves

RRP: \$224.95

Contemporary elegance will be yours when you accent your room with this 1.6-metre floor lamp from Palermo. Its versatile design and neutral colours pair well with almost any style room, while its off-white shade provides a warm glow for instant relaxation. Crafted from authentic wood, the frame and shelves bring nature inside your home.

Pitch-perfect with contemporary or Mid-Century Modern décor, this lamp works equally well nestled in corners as it does as an armchair or sofa companion. Use it in bedrooms for a calm, centred ambience, or use two in the foyer to create a grand entry that will impress every guest that comes into your home.

The shade diffuses the light, making its glow easy on your eyes at the end of a hard day's work. Compatible with both 60-watt and LED bulbs, it stays cool even as it provides warm, soft illumination.

Three shelves underneath display your most treasured belongings—books, pottery, photos, mementoes, plants, or other treasures as the light draws your eye to the objects displayed. Both a storage solution and an attractive display, this lamp is as practical as it is beautiful.

Easy to assemble, this lamp only takes a half-hour from start to finish—and only requires a Phillips head screwdriver to complete. Manufactured according to Australian standards, this lamp is a high-quality addition to your home.
