

4.9m Caravan Privacy Screen Side Sunscreen Sun Shade for 17' Roll Out Awning

RRP: \$139.95

If you love camping but want some privacy for your caravan area, this privacy screen rollout awning from Barlioche is for you. A full 4.9 metres long and nearly 2 metres wide, this privacy screen creates a zone where you can enjoy the ultimate in privacy even as you enjoy the great outdoors.

Easy-to-install, this privacy screen attaches to your caravan's own awning. After you slide it along your caravan's awning, secure it with the included pegs and guy ropes. It only takes a few minutes to create your own private oasis.

Not only does this shade ensure privacy, but it also protects against the sun's harmful UV rays and repels water with its rugged 166-gsm polyethylene fabric. A hemmed edge prevents fraying, while heavy-duty D-ring attachment joints crafted from tough stainless steel provide durability, even under harsh weather conditions.

Compatible with roll-out caravan awnings such as Domestic A&E and Carefree fiesta, this screen packs up in minutes for storage in its handy carry bag. Before camping season gets underway, get your privacy screen today.
