

Kitchen Scale Digital Postal LCD Electronic Weight Scales Food Shop 10kg/1g

RRP: \$49.95

Home chefs and food shops alike will love this accurate LCD digital electronic weight scale from Randy & Travis Machinery. With accuracy within one gram, this scale can weigh food or other items up to 10 kilogrammes. Battery-operated, it can even function outdoors when you need to weigh ingredients at your next barbecue.

This handy device measures in both liquid and mass; both metric and imperial, so you never have to guess at recipe conversions. Its chrome-plated platform is sturdier than most scales and is easy to clean, cutting down on the risk of contamination.
