

112Kg Salvage Strong Recovery Magnet Neodymium Hook

RRP: \$54.95

Treasure hunters today have an easier go of it, thanks to strong magnets like these 112kg Salvage Recovery Magnets by Randy & Travis Machinery. Weighing only 278g, these tiny-but-mighty magnets can pull out metal from water, piles of dirt, or other mediums, allowing you to retrieve old artefacts, coins, or other metal objects.

Separate metal from non-metal objects easily using these magnets, allowing you to organise materials for recycling or reuse. If you need a super-strong magnet that's compact in size, this one ticks off all the boxes. Buy one for yourself—and one for a friend or loved one—and go treasure hunting together.

Features and specifications:

- Material: NdFeB
- Colour: Silver
- Weight: 278g
- Pulling force: 112kg
- Diameter: 60mm
- Height: 53.4mm
- Accessories: 1 x 60-mm countersunk magnetic hooks

NOTE: Do not allow children to play with these magnets. They are extremely strong. Also, keep them away from persons with pacemakers, as well as from items sensitive to magnets, such as bank cards, computers, mobile phones, and similar devices.
