

## Footrest Under Desk Foot / Leg Rest for Office Chair Ergonomic Computer Plastic

RRP: \$114.95

When you sit all day for work, your legs and feet need a break. With this ergonomic footrest by Randy & Travis Machinery, you can elevate your legs and feet to give you better posture and improve your circulation. Its adjustable height helps to relieve back pressure and decrease fatigue during long periods of work.

With its innovative design, you can tilt the footrest into three different positions to attain the angle that feels best. A non-slip footpad prevents your feet from sliding off the rest, creating a stable surface that provides the ultimate in comfort. Its textured surface massages the soles of your feet, reducing stress and boosting circulation.

Easily stashed under your computer desk, this footrest prevents pain and fatigue from distracting you as you concentrate on your work.
