

60cm Wide Angle Security Curved Convex Road Safety Mirror Traffic Driveway

RRP: \$149.95

This 60-centimetre wide-angle convex road safety mirror from Randy & Travis Machinery provides motorists and pedestrians with better vision. With convex curvature, the mirror reduces or eliminates blind spots, allows drivers to better gauge tight spots and corners in parking garages, driveways, or narrow streets. With eye-catching orange-red colour, drivers can receive advanced warning of hazards ahead, while its two-metre viewing distance gives drivers room to manoeuvre around the hazard safely.

This mirror is as versatile as it is effective. With its wide-angle convex construction, it allows security personnel to keep an eye on unwatched areas, deterring theft and vandalism.
