

## Yoga Pilates Wheel Cork Circle Prop Back Chest Hips Abdomen Stretch Roller

RRP: \$114.95

If you practice yoga or simply want a better piece of equipment to help you stretch, this gorgeous cork Dharma yoga prop wheel from Randy & Travis Machinery is the perfect choice. Whether you need a prop wheel for doing yoga poses or a comfortable roller for stretches, this yoga wheel will soon become your favourite workout equipment.

This wheel will help you increase your flexibility, whether for simple stretches or working on your backbends. With an exterior crafted from natural cork, it's comfortable and forgiving. Decorated with stunning Indian-inspired designs, it's as beautiful as it is comfortable.

Cork isn't just pretty, but it's also a sustainable resource. That's not all. It's anti-microbial, so it resists germs that grow on the gym floor or on your workout clothes. It's easy to clean and naturally odour resistant as well.

With thick padding on the outside, this wheel cushions your spine, keeping you comfortable as you exercise. The wheel's core is sturdy, strong, and durable—with an incredible 200-kilogramme breaking strength, thanks to the injection moulding process used in its manufacturing. Even though it's strong, it's light in weight, making it easy for you to carry to the gym or when you travel.

It's the perfect gift for the athlete in your life—and a great addition to your own workout. Order yours today.
