

180cm Heavy Duty Rubber Curb Parking Guide Wheel Driveway Stopper Reflective Yellow

RRP: \$214.95

Define your parking spots and protect your landscaping, sidewalks, and walls with this heavy-duty rubber parking curb by Randy & Travis Machinery. Six feet in length and done in high-contrast yellow and black, it's highly visible to drivers, even at night. Crafted in weather-resistant rubber, this curb withstands extreme weather conditions as well as oil, petrol, UV light, and moisture.

Although it is rugged, this parking curb retains rubber's flexibility so it can conform to uneven pavement conditions and protect your customers' cars in case of accidental hits. Unlike concrete, this rubber parking curb won't crack, chip, corrode, or crumble. And, in contrast to concrete, you can use it for temporary parking spaces as well as permanent ones.

Use it in parking lots or garages for a permanent feature or at events for temporary parking. Light in weight, this parking stop is easily movable when you remodel your parking spaces, unlike concrete that requires demolition. Made from recycled rubber, these parking curbs reduce waste in landfills while serving a practical purpose. Order yours today!

Features and specifications
