

Portable Baseball Training Net Stand Softball Practice Sports Tennis

RRP: \$254.95

If you want to burn up the ball diamond and impress your mates with your skills, you need this hitting and pitching net by Randy & Travis Machinery.

Aim your pitches at a target inside the net. The net catches each ball you throw, so you never have to run after pitched balls again. When you practice your batting skills, the net will catch line drives so that you won't have to run far to retrieve the ball. You can even practice catching with a teammate pitching to you. If you don't catch the ball, no worries. The soft, yet durable weather-resistant net will keep most pitched balls from straying so that you can concentrate on your catching skills, not running after balls.

The frame's iron pipe construction, fibreglass poles, and Teton fibre net hold steady no matter how hard you pitch and hit. With seven full feet in both width and height, the net is wide enough to catch nearly every ball. It comes with its own carrying bag and disassembles quickly, allowing you to take it to the park, the beach, or even the campground when you go on holiday. Setup is easy, with no tools required. You can be up and running in a mere two minutes. Don't wait for the seasons to change. Get your pitching net to get up to speed before the season starts.

Features and specifications:

- Material: Iron, flexible fibreglass poles, and weather-resistant Teton fabric
- Colour: Red, white, and black
- Dimensions: approx 213 x 213 x 110cm (L x W x D)
