

## 51cm Strong Magnetic Wall Mounted Kitchen Knife Magnet Bar Holder Display Rack Strip

RRP: \$69.95

If you're a chef—or just want to cook like one, you need all your tools at your disposal. With this uber-strong magnetic wall strip by Randy & Travis Machinery, you'll have everything you need to create mouth-watering gourmet meals right at your fingertips. With its powerful magnetic power, it holds your entire knife collection, as well as any other flat kitchen tools.

You don't even have to screw it onto the wall. Just fasten it to your splashback surface with its powerful adhesive backing. Crafted from high-quality, heavy-duty stainless steel, it's corrosion-resistant, as well as waterproof and rustproof, so it's as durable as it is strong.

If you have little ones at home, this strip can keep your knives up where the kiddos can't reach them, unlike drawers that they can reach easily. It's not only practical, but it looks great, too, displaying your knife collection as attractive wall art for your kitchen.

For homes with little storage space, this magnetic strip is a must. Free up more benchtop and drawer space when you use the vertical space on your wall for storage. Don't wait until the holidays arrive and you need all the convenience you can get. Order yours today.

### Features and specifications:

- Material: Heavy-duty 304 stainless steel
- Dimensions: 51 x 4 x 1.5 cm (L x W x H)
- No holes, no screws: Sticks to your wall with strong adhesive backing
- Installs horizontally for a vertical knife display
- Ensure that the surface on which you install it is flat, without bumps.
- If you mount it on your refrigerator, install it on the side of the fridge instead of the door
- Caution: Magnets can interfere with pacemaker operation

Note: knives, etc not included
