

Wood Computer Desk PC Laptop Table Gaming Desk Home Office Study Furniture

RRP: \$324.95

If you work from home, having a comfortable, efficient workspace is a must. With this contemporary yet elegant wood computer desk from Randy & Travis Machinery, you'll have a workstation with plenty of room to spread out papers, pens and pencils, mobile devices, and other tools you need to get work done. With a 120 x 52cm top, there's even room for holding team meetings. Crafted from sturdy MDF in a lovely maple colour, this desk is wear- and scratch-resistant. No worries if you spill your coffee. With its waterproof surface, spilled liquids won't cause the tabletop to warp or ruin its finish.

Not only is this desk great for work, but it's also a perfect place to play your favourite games. Just tuck your laptop into one of the drawers, pull out your gaming device, and enjoy an invigorating after-work video game.

No need to limit this desk to home use. Its streamlined design and superb craftsmanship give it all the cachet you need to impress potential clients. It's easy to assemble, so you'll never need to hire a handyman to put it together. At only 21kg, its lightweight frame allows you to move it into another office when you remodel. For unmatched beauty and efficiency, this desk is a great investment. Order yours today!
