

Aluminium Folding Table 120cm Portable Indoor Outdoor Picnic Party Camping Tables

RRP: \$134.95

Getting ready to enjoy summer picnics at the park or impromptu beach seafood feasts? Don't forget to take along this easy-store portable folding table by Randy & Travis Machinery. Perfect for camping trips or as an extra table for holiday get-togethers, this table is a summertime accessory you won't want to be without. It comes with an attached handle and folds up into an easy-carry, easy-store carrying case. Its light weight makes it an excellent choice for travelling, yet its more than 9kg weight capacity can hold a wide variety of foods.

Use it as a kids' table to give the little ones a place of their own at holiday feasts or as a side table for salads or desserts. Adjust it to 54, 61, or 70 cm height to accommodate kids of various sizes. A security latch prevents accidental collapse, while locking legs provide added stability.

With its weather-resistant aluminium construction, you can use it both inside and out. For studio apartments, this table is a must-have, particularly if you love entertaining. Its adjustable glides protect your floor from scratches and dents.

This folding table provides extra space for four guests but folds away neatly after the party's over. When folded up, its compact footprint takes up little space in your wardrobe or other storage spaces. A great gift for camping fans, young people in their first apartment, or families with young kids – or a great accessory for those who love entertaining, this table is something you won't want to do without. Get yours today!
