

A4 LED Light Box Tracing Board Art Design Stencil Tattoo Copy Drawing Pad

RRP: \$44.95

If you love to draw, this A4 LED-illuminated tracing board by Randy & Travis Machinery can help you hone your talent by first copying others' designs, giving you a better sense of perspective, shading, and line. Or, if you can barely colour within the lines but want to duplicate a favourite drawing in a book, this tracing board can help, its backlight allowing you to trace every facet of the drawing.

With its three levels of brightness, you can adjust it to your exact level of comfort.

It's the perfect solution to transfer an existing design to fabric or other craft projects, or to duplicate a design for custom tattoos. Its LED backlight can illuminate through even thick paper. Stepless dimming allows you to adjust the brightness to the level you need. Flash film evens the light source to protect your eyesight. This tracing board makes the ideal gift for the artist in your life, as well as a source of inspiration for your own artistic side. Order yours today!
