

3 Tier Shoe Rack Bamboo Wooden Storage Shelf Stand Bench Cabinet Organiser

RRP: \$119.95

If you struggle to get your shoes on at the door without falling over while standing on a four-inch high heel, this amazing bamboo storage bench by Randy & Travis Machinery is the perfect solution. With a bench on top and two tiers of airy racks on the bottom, you have enough room to store up to ten pairs of shoes and a comfortable seat to put them on. Bamboo is one of the most durable materials on the planet, yet it's sustainable and eco-friendly – the best of both worlds.

Its natural wood colour blends in beautifully with a wealth of home colour palettes, while its sleek design will complement nearly every interior. Countersunk screws give it a seamless, streamlined look. Airy shoe storage shelves feature gaps between boards to provide needed ventilation, while a centre beam provides extra support. If you don't need to sit down to put your shoes on, the bench seat provides additional storage for hats, keys, or other outdoor gear. Not only is this bench a lovely addition to your entryway, but it can also lend a contemporary vibe to any room where you need extra storage or display space.
