

Mobile Laptop Desk Bed Stand Computer Table Adjustable Notebook Bedside Table

RRP: \$99.95

If you work at home, this versatile computer table by Randy & Travis Machinery is a must-have. Crafted from premium carbon steel and 17-millimetre scratch-resistant MDF board, this table will provide you with years of dependable service. Its flexible design allows it to double as a breakfast tray, a bedside table, or an impromptu place for the kids to do their homework. It's height-adjustable, so you can use it whether you prefer to work seated or standing.

With its H-shaped design, it can fit under practically any piece of furniture. Its lightweight and easy-roll caster wheels make it incredibly portable. After you move it to the room in which you want to use it, simply lock the wheels for stability. It's easy to assemble and easy to use. Adjust the height to your preference, lock the height with a quick twist of the knob, and you're ready to go to work. Don't miss out on your chance to get the perfect work-at-home solution. Order yours today!
