

Cat Cardboard House Tree Tower Condo Scratcher Pet Post Pad Mat Furniture

RRP: \$79.95

If you've had a cat for a while, you know that they prefer cardboard boxes to any of those fancy carpet-covered wood cat condos. You can't just leave cardboard boxes out all over your house, though – what would your guests say? Here's the perfect solution for Kitty and you: this adorable cardboard cat condo by Randy & Travis Machinery. From its charming paw print window to its multi-level interior, this is your cat's idea of paradise on earth.

Whether she prefers to spend her days snoozing inside or gazing out from her high perch on the roof, your cat will love to spend time exploring her condo from top to bottom. Scratchboards allow her to sharpen her claws, keeping her off your furniture for good. It's made from all-natural, sustainable cardboard with a solid base – and it's light in weight, meaning you can take it anywhere in your house. Rigid supports and 11 millimetres of extra thickness make Kitty's new home sturdy and durable. It's easy to assemble and easy to care for — and it's large enough to accommodate multiple cats or small dogs. Give your cat (or pup) the gift of a new home to love. Order yours today!
