

Car Luggage Basket Trailer Hitch Cargo Carrier

RRP: \$604.95

Getting ready to go on holiday but realised that you didn't have enough space for all your luggage and other cargo? This basket cargo carrier by Randy & Travis Machinery fits right onto your vehicle's trailer hitch and can carry 220kg of cargo. Load your coolers or your extra bags onto the cargo carrier and enjoy more space for your passengers. Six-inch walls around the basket keep your belongings secure. For extra protection, you can attach a cargo net or bag to keep your cargo from slipping when you hit a bump in the road.

Not only does it make travel more comfortable, but it's easy to fold up when not in use, thanks to its foldable angled shank. It's a great solution for businesses, too, that need a little extra cargo capacity but don't need an entire trailer. Its mesh base allows you to clean it easily. Just hose it down, and you're good to go. Order yours today and never have cramped seating in your car again.

Features and specifications:

- Materials: High-strength, lightweight tubular steel
- Cargo weight capacity: 220kg
- Fits: 2 in trailer receiver
- Coated with both an E-coat and a carbide black powder coat for rust resistance
