

60cm Round Wall Mirror Bathroom Makeup Mirror by Della Francesca

RRP: \$199.95

Looking for a sleek, contemporary look for your foyer, living room, bedroom, dining room, or even office? This stunning round mirror from Della Francesca is the perfect solution. With its minimalist black frame and incredible clarity, this mirror will create instant visual pop in any room. Whether your home is mid-century modern, industrial, or contemporary in design, this mirror will accent your room's streamlined style. Its neutral black colour will work perfectly with any colour scheme. Its circular design adds an element of curvature, providing a contrast with the vertical lines of the walls and ceiling.

Beautifully crafted, this mirror bears all the marks of its maker's attention to detail in every aspect of its construction. The mirror's clarity comes from its four-layer silver-plating technology. Starting with 4.0-mm-thick, mirror-grade glass, the maker layered on a pure silver reflector backed in copper protective film and a layer of paint, making it as durable as it is gorgeous. Its light will reflect the light that's already in the room, making your space look larger, airier, and brighter. Its MDF frame is light, but extremely durable, providing a solid support for the mirror inside. Create a heightened sense of elegance in your home. Order your mirror today!
