RRP: \$164.95

Love the look of the Sixties' and Seventies' iconic shag rugs? Here's the perfect home accessory. With this gorgeous burgundy shag rug by Randy & Travis Machinery, you can have the look you crave with the advantage of today's manufacturing technology. Crafted from fade- and stain-resistant polyester, this rug features two more layers underneath the shag to give it even more comfort and durability. A five-millimetre foam layer directly underneath adds incredible comfort, as well as insulation and sound absorption.

Underneath, a non-slip surface helps the rug stay in place, even under hard use. If you want to change your colour scheme with the seasons, simply fold it up and store it. When you need it out again, simply unfold it – and it'll look as good as new. It's easy to care for and easy to clean.

Simply take it outside and shake it – or use your vacuum cleaner to deep clean for dust and pet dander. Don't miss out on this versatile, durable rug. Order yours today!
