

2-Door Vertical Locker for Office Gym Shed School Home Storage

RRP: \$369.95

A great solution for those places where you need extra secure storage, the all-steel 2-Door Storage Locker is an attractive and durable addition to home, school, or office. The two vertically-stacked lockers provide ample room for any number of personal belongings, from textbooks at school to office supplies at work and anything in between.

The locker is constructed with solid cold-rolled steel plate for sturdiness and durability and comes with standard locks (with 2 keys each) for worry-free storage. The steel is also powder-coated to resist corrosion. The locker measures 180 x 38 x 45cm, and the maximum recommended weight capacity is approximately 30kg per locker. There are spaces designated for labels to help identify lockers, and air vents are built-in to assure sufficient ventilation.

For even more storage, consider buying two or more units, which can be placed side by side where you need them.

A simple design makes assembly easy, and your locker could be up and ready in minutes. Full assembly instructions are included.

For a handy place to store most anything that won't take up too much room, consider the 2-Door Storage Locker for you, your employees, or your students.

- Privacy and security
- Recommended weight capacity: 30kg per locker
- Durable cold-rolled steel plate construction
- Powder-coated to resist corrosion
- Easy to assemble; instructions included

Features of Standard Lock with 2 Keys:

Made with heavy-duty metal, this lock is extremely durable and resists corrosion. This secure lock from Salvatore Angelotti will hold up even under heavy use. Its finish resists moisture, making it a great choice for moisture-prone locker rooms with sinks, showers, toilets, and other facilities. Its simple design ensures that users won't have to remember numerical combinations, yet its tough construction protects your lockers from break-ins.

Reliable and strong, this lock allows you to give one key to the user and keep the other in a safe location, allowing you to access the contents if

the user loses the key or leaves without turning in the key. It's an excellent alternative to combination locks for offices, gyms, or schools. Use it at home in your garage to secure valuable tools. Or, use it to lock a locker inside a wardrobe in your bedroom to keep jewellery, coin collections, or other valuable items safe.

Note: Each Lock on the unit will come with two keys. Locker assembly required; instructions and hardware included.
