

Wedge Elevation Pillow Cool Gel Memory Foam Leg Raiser Support Cushion

RRP: \$149.95

Relax in pure comfort with this body-conforming memory foam pillow by Randy & Travis Machinery. As versatile as it is comfortable, it works equally well to elevate your upper body or your legs. For your upper body, it helps relieve pressure, keeping your spine and neck aligned and your head fully supported. Elevating your upper body can even help you breathe better, relieving pressure in your airway. Meanwhile, elevating your legs can reduce swelling and help improve circulation, making it easier for your heart to do its work. It's the perfect choice for pregnant women, people recovering from back injuries, or those who have sleep issues.

With its high-density memory foam, you'll enjoy perfect support, while its breathable knitted cover, with its hypoallergenic and antibacterial properties, promotes better health. The cover is machine-washable and easy to care for. Since it's sourced from bamboo, it's easy on the earth, reducing your carbon footprint and providing you with peace of mind. It's the ideal gift for the person who has everything — except for restful sleep. Don't miss out on the opportunity to provide a good night's sleep for yourself or someone you love. Order yours today!
