

Kitchen Chandelier Lighting Home Glass Pendant Light Bar Lamp Ceiling Lights

RRP: \$279.95

If industrial chic or farmhouse décor is your thing, this rugged kitchen pendant light by Palermo is a must-have. You can match an Edison-style LED bulb with this design of a cage of angular metal bars - it is the perfect way to give your kitchen a bold retro vibe. Its neutral black colour blends with practically any colour scheme, so if you change your paint or wallcovering colours, it will still look amazing.

Although it was designed for kitchens, it has a wealth of other uses. Install one in your foyer for an uber-dramatic entry, over your dining table to create an eye-catching focal point, or in your hallway to lend an often-neglected space some rustic style. Use it in your office at work or home. Hung over your desk, it makes a striking statement. If rugged and bold is your idea of high style, don't pass this one up. Order yours today!
