Rimmed with a waterproof LED light strip that changes colour temperatures with just a touch, you can see exactly how you'll look under any kind of lighting. With three light settings, you can see yourself like you'll appear outside during daylight hours, at the office under cool fluorescent lighting, and relaxing in the soft glow of warm yellow lights in the evening. This mirror is as beautiful as it is practical. With its urban contemporary vibe, it adds a touch of elegance to your bath for a streamlined, clean look.

Superb craftsmanship sets this mirror apart from the rest. Starting with top-quality mirror-grade glass, the maker adds a layer of pure silver for high reflectivity, a protective copper film, and a layer of paint to seal it in. With an expected lifespan of 50,000 hours, the light strip will provide you with years of service. And, best of all, it won't fog up — even after a steamy shower. It's dust- and water-resistant, making it easy to clean and maintain.
