

4FT 12-in-1 Combo Games Tables Foosball Soccer Basketball Hockey Pool Table Tennis

RRP: \$739.95

Wouldn't you love to have the room in your home for 12 different game setups? With this 12-in-one game table set by Randy & Travis Machinery, you can play 12 of your favourite multi-player or single-player games with one versatile table, even if your home is short on space. Play air hockey, toss the bean bag, play basketball, foosball, dice, checkers, chess, backgammon, table tennis, air football, and even archery and stick hockey with one compact table. It comes with all the game pieces you need for every game — so you can start playing the moment you set it up. If you get bored with one game, simply switch it in only a few easy steps. It's only 48 inches in length, so it takes up little space. It's the perfect solution for smaller homes or kids' rooms and makes a super gift for your kids or the whole family.

It's easy to set up and easy to maintain. Crafted from sturdy MDF, with steel rubber-handled foosball rods, it's as durable as it is versatile. Teach your kids some fun lessons about friction with your air hockey table, and then hone your jump shot with the basketball game afterwards. You and your family will never get bored again! Order your game set today!
