

Wooden Bedside Table 2 Drawers Cabinet Storage Tall Night Stand

RRP: \$134.95

Oozing with trendy Mid-Century Modern design, this Sputnik-inspired bedside table by Palermo will give your bedroom a retro atomic flair. With its sleek white case atop tall, splayed legs, it looks like you've plucked it straight out of a pricey vintage furniture dealer's showroom. But unlike a high-end collectible, this nightstand is tough, durable, and built to handle everyday life. Crafted from white-painted wood with natural legs, its neutral colour makes it a fantastic addition to your room, no matter what its colour scheme.

Two spacious drawers keep clutter to a minimum, while its wide tabletop is large enough to hold a lamp, your before-bed reading material, a glass of water, or whatever you like to have by your side as you sleep. Buy a pair of these gorgeous nightstands and give your bedroom a clean, symmetric look. Don't limit these beautiful, yet practical stands to your bedroom. They're the perfect accents to set beside your favourite living room chair or sofa.
