

Wooden Portable Ballet Bar Stretch Barre Dance Bar 1.5M Freestanding Ballet Bar

RRP: \$369.95

Have a budding ballerina in the family? This sturdy, studio-quality ballet barre by Randy & Travis Machinery makes the perfect gift for the holidays, for upcoming birthdays, or just because. It's also a great addition to your own workout regimen, allowing you to develop flexibility and balance to cross-train for your favourite sport – or just to get into better shape. Crafted from natural pine timber with a manganese-steel core, this barre is designed to last for years, even under heavy use. It is freestanding and portable and can go anywhere you do.

With a weight capacity of 200 kilogrammes, this barre can accommodate dancers of all sizes. Its seven-level adjustable height allows you to customise it for a wide range of users. No worries about slippage. With four large suction cups, the base will remain firmly in place. When you're done, simply unlock the suction cups and stow it away if needed. Make sure you install it on a smooth surface to enable the suction cups to work. It's easy to install and easy to move, making it the perfect accessory for your home gym. Don't miss out on this quality portable barre. Order yours today!
