

Wood & Metal Computer Desk with Shelf Home Office Furniture

RRP: \$174.95

When you need both a stylish desk and extra storage, you can have it all with this gorgeous desk by Randy & Travis Machinery. Crafted from high-quality, durable MDF and sturdy steel, this desk provides a generous desktop to hold your computer, papers, and other work essentials as well as a shelf underneath to store books, mail, files, and even your purse or briefcase. With its stunning woodgrain top and shelf contrasting with its white, K-shaped legs, its style and neutral colour profile will fit in seamlessly with practically any décor and colour scheme.

Every bit as sturdy as it is sleek, this desk is built to last for years. Its practical design with in-built storage saves space, while its wide feet provide stability. Whether you work at home or commute to an office, this desk will showcase you as a consummate professional with its elegant lines. It's also a great addition to your teen's room as a study centre. With room to store his or her books and a spacious surface to read and write on, it's an ideal place to nurture your young Einstein's mind. Order yours today!
