

## 10" LED Selfie Ring Light with 1.6M Tripod Stand Phone Holder Photo Live Makeup

RRP: \$104.95

You'll take perfect self-portraits and videos every time with this deluxe LED selfie ring light by Randy & Travis Machinery. With a tripod and table stand mount included, this 10-inch ring features three colour lighting modes and 10 brightness levels for 30 dimmable lighting options. Since it's crafted from lightweight aluminium and easy to assemble and take down, you can take it along wherever you go. And, when it's time to store it, it folds easily to fit into even small storage spaces.

It accommodates most smartphones, and it comes with a USB power cord that connects to both desktop and notebooks alike. Its iron-weighted base improves stability to resist tipping, and it comes with a desktop stand for tabletop setup. With 360-degree rotation, this ring can adjust to any setting to frame you in the most favourable light. Its long-distance remote control allows you to step back from the camera for a fuller view. Rock those Zoom meetings with style when you have this near professional-grade lighting system at your side. Order yours today!
