

Trapezium-Shaped Table Bench Desk Legs Retro Industrial Design Fully Welded - Black

RRP: \$329.95

Stark geometry creates a striking design in these trapezium-shaped black table legs from Della Francesca. Wide at the bottom, tapering to a narrow top, these are perfect underneath a minimalist table, bench, or coffee table. Their industrial-retro vibe makes them a perfect foil for Mid-Century or contemporary décor.

Their sleek design and black colour become almost an art form, as they peek out from underneath your table. Use them to update an older table top for a one-of-a-kind look.

Manufactured from 75mm sturdy steel tubes, these legs can support tables or benches up to 200kg. Installation is easy as they're pre-welded and have pre-drilled screw holes, so you'll have your gorgeous new table up in no time. Order a set of these gorgeous trapezium table legs today!
