

## Trapezoid-Shaped Table Bench Desk Legs Retro Industrial Design Fully Welded - Black

RRP: \$239.95

Love the industrial look with a modern twist? Give your table a facelift or build your own table with these rectangular table legs by Della Francesca. Crafted from tough powder-coated iron, these table legs will hold up under even heavy daily use. Their pre-drilled holes make them a breeze to instal, even for beginner DIYers. Just attach the included non-slip pads under each leg to prevent scratches and resist slippage, and you'll have a secure base that can support almost any load — up to 200 kg.

Designed in matte black to lend a sleek, contemporary look, these table legs turn an ordinary dining room table, bench, or coffee table into a showstopper. Their minimalist design blends in perfectly with Mid-Century Modern, industrial chic, rustic contemporary, or a host of trendy looks, while its neutral tone pairs well with practically any colour palette. It's the perfect solution to update an old piece with designer cachet. Remodelling a table or bench makes a great project for lazy summer days and a lovely gift for the DIYer in your life. Order yours today!
