

46x22 cm Cast Iron Reversible Griddle Plate BBQ Hob Cooking Grill Pan

RRP: \$99.95

Summer might be over, but don't let fall's chill cool off your love for the smoky taste of food fresh off the barbecue. With this non-stick barbecue griddle pan by Randy & Travis Machinery, you'll be the envy of the neighbourhood for your perfectly done burgers, steaks, seafood, and other favourites. And that's not all. This griddle pan features two sides — one ridged for barbecue, the other smooth for frying pancakes, eggs, or even baking a pizza. A drip tray holds oils and other fats for easy disposal.

Cast iron can endure extremely high temperatures, retaining heat and giving your meats a perfect sear. That means you'll get an even cooking temperature, ensuring ideal doneness every time. Its durability is legendary, lasting for years — even generations. When autumn's chill turns to winter's cold, you can bring your barbecue game indoors, placing your griddle over two rings on your stove's hob. Its non-stick coating makes your food slide off easily and makes clean-up a breeze. It features two handles, so you can lift it off your barbecue or hob with little effort and hang it up after you're done. Make your autumn barbecues amazing with this versatile tool. Order your griddle today!
