

4X M6 304 Stainless Steel Oblong Pad Eye Plate Marine Hardware Staple Hook

RRP: \$34.95

If you need to lock something securely or hang heavy objects, there's nothing like this hard-working set of eye plates from Randy & Travis Machinery. With their load-bearing capacity of 0.1 tonne, they can handle practically any job you give them. Corrosion-resistant and durable, they can hold up even in a saltwater environment – so go ahead and use them to tie your boat or small yacht to the dock. And, they look great – so if you're using them to lock your garden shed, they'll only add to the beauty of your building. Use them to string up your hammock or hang your sporting equipment or tools in the garage for storage.

In the home, you can use these strong eye plates to hang heavy light fixtures, such as ceiling fans or chandeliers, from the ceiling. Or, install them on the wall to hang heavy, valuable works of art without worry. Use them to hang gym equipment, such as punching bags, gymnastic rings, or other hanging apparatuses. These eye plates can accommodate concrete, brick, tile, or wood walls, ceilings, doors, or posts. And, they also work on floors, should you need to anchor an object to the floor. Every DIYer should keep a set of these eye plates on hand in case a need for them arises. Get yours today!
