

Metal Dish Drying Rack Drainboard Holder Tray Kitchen Plates Cutlery Wood Handle

RRP: \$99.95

Finally, a dish drying rack that adds a touch of class to your kitchen! This unique dish drying rack by Randy & Travis Machinery features a streamlined design accented with wooden handles, giving your kitchen a clean, Nordic vibe. With its easily movable cutlery holder, you can stack dishes more efficiently, moving the holder around to accommodate larger dishes, bowls, and pans. Unlike slippery plastic handles, this dish rack's wooden handles make it easy for you to move it to a different spot, even when it's wet. Their smooth, rounded edges feel comfortable in your hands.

Crafted from strong, durable iron with a rust-resistant coating, it can handle even your heaviest pots and pans. Its thick protective coating is designed to keep rust at bay for years to come, even under frequent use. Its deep-channelled resin drip tray protects your countertop from drips as your dishes dry. And, it comes ready to use right out of the box with no assembly needed. Simply place the cutlery holder where you want it and start drying your dishes in style. Give your kitchen a quick update with this drying rack. Order yours today!
