

12" LED Light Room Photo Studio Photography Lighting Tent Kit Backdrop Cube Box

RRP: \$104.95

If your business sells small items on an e-commerce platform, you know that great photographs can make or break the sale. With this photography light box by Randy & Travis Machinery, your photos will showcase your merchandise against a perfect background that will bring out their best features. Professional photographers, too, love this light box when they want to photograph a small vase of flowers or other small subjects. With its multi-angle shot capabilities, you can find the ideal angle for each shot.

It's easy to assemble in only a few seconds, so you can get it up and running in no time. And, it folds up so it's easy to carry everywhere you go. With its built-in LED light, it provides optimum lighting, reducing shadows and reflections. Its stone-grain fabric gathers light, distributing it throughout the box with a three-dimensional effect to highlight your photo's subjects.
