

4 Arm Rotary Garden Washing Line Clothes Airer Dryer Outdoor Spike 40m Length

RRP: \$149.95

If you love the scent of laundry after nature's gentle breezes and sunshine have worked their magic, you won't want to pass up this four-arm outdoor washing line by Randy & Travis Machinery. Pretty enough to install in your garden yet built to last, this eco-friendly clothes dryer will lower your carbon footprint and make your laundry smell heavenly. Crafted from heavy-duty steel with a sturdy PVC-coated line, it's definitely built to last.

That's not all. With 40 metres of line, you can dry four whole loads of laundry all at once. Even better, you can fold it up when you're finished so that it takes up even less space while you're not using it. It even comes with its own ground spike, so it's super easy to install. Weatherproof even without a protective cover, thanks to its powder-coated frame, this rack should stand up under whatever Mother Nature throws at it. Make this the year that you start living eco-friendly. Order your drying rack today!
