Commercial Clothing Garment Rack Retail Shop White

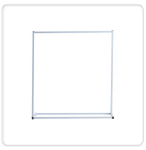

RRP: $189.95

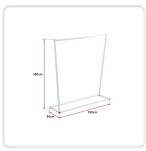

Whether you need an attractive display rack for your clothing shop or a convenient way to organise your clothes in your walk-in wardrobe, this designer clothing rack by Randy & Travis Machinery is a perfect solution. Crafted from industrial-grade steel, this rack is as sturdy as it is beautiful, so you needn't worry about it tipping over. Its triangular centre supports ensure stability.

Use it in your restaurant's coat check room, in concert halls, or in community centres to provide a convenient spot for your customers' overcoats or other outdoor weather. Use it in dressing rooms for public pools to store swimmers' street clothes. It's easy to assemble and disassemble, so you can store it away during the offseason.

For families, there are a variety of uses in addition to a permanent organisational solution for walk-in wardrobes. You can even take it along to the market or use it for yard sales to display clothing. Use it to hang your guests' overcoats during cold-weather gatherings and then store it away when warm weather arrives. If you need a storage rack that looks elegant yet won't break the bank, this durable rack is the perfect solution. Order yours today.
