

60 Pack Sports Training Discs Markers Cones Soccer AFL Exercise Personal Fitness

RRP: \$54.95

Coaches and parents all over the world know the value of brightly coloured cones and markers to teach athletes to mark off courses, define playing field boundaries, or mark off goals. Whether it's a slalom course to improve quickness and agility, creating smaller areas in a large field for athletes to work on specific skills, or creating an area in the centre of an ice rink during open sessions for more advanced skaters to work on jumps and spins. Also, they're the ideal tool to teach beginning bikers manoeuvrability. And, they make great toys for the younger kids in your family.

Unlike most markers or cones, this set of 60 cones from Randy & Travis Machinery are durable and brightly coloured, making them especially valuable training aids for younger players, who often are so focused on learning their skills that they don't see the markers. They're perfect for teaching agility and speed in basketball, soccer, hockey players, or any other athlete whose sport requires quickness of foot, quick starts, and turns. Crafted from forgiving yet tough plastic, these cones can take all your athletes give out, yet give easily to prevent injury in case of a collision. They're stackable and come with an easy-carry stand with a handle so you can carry it easily from your home or office to the sports venue. Don't start the next season without these cones. Get yours today!
