

## Sling Puck Table Battle Ice Hockey Board Game Toy Gift Adult Kids

RRP: \$49.95

If you're a hockey lover or simply enjoy table games, this durable wooden hockey table game by Randy & Travis Machinery is a great addition to your game collection. It's lightweight, portable, and easy to take with you when you travel. It's a great way to build your hand-eye coordination and learn more about actual hockey strategy if you play in real life. It comes ready to play – all you need to do is to insert the included elastic bands into the slot at each end of the board.

This game is easy to learn – even beginners can get up to speed in minutes. Just use a single finger to pull back the inset elastic band to shoot all the pucks into your opponent's court. The winner of each round is the first player to get all their pucks into your opponent's court. The first player to win two rounds wins the game. You don't need to take turns – you just keep shooting until all your pucks are on the other side. It's a lot like the ever-popular foosball, but in a hockey setting. It's an excellent gift for the table game lover in your life.
