

White Cube DIY Shoe Cabinet Rack Storage Portable Stackable Organiser Stand

RRP: \$99.95

If you love shoes, you need a place to organise and store all your faves. With this modular shoe cabinet by Randy & Travis Machinery, you can stash your entire collection in a single place, or you can store your most-used footwear in the entryway and your special occasion shoes in your bedroom's wardrobe. Or, split up the storage among all your family members' rooms — it's your choice. You can even remove the lid on the top cube to store backpacks and handbags for easy access! Whatever configuration you choose, this portable shoe and boot rack is the perfect way to solve your shoe storage challenges. Crafted from metal and sturdy plastic, it will stand up even under daily usage.

Each cube features a removable shelf to make it easy to store boots up to 30 cm in height. Done in neutral white, it will blend in seamlessly with practically any room's colour scheme. Or, it's the perfect addition to a walk-in wardrobe in your master bedroom. It's one of the most versatile storage solutions on the market today — and it's as affordable as it is useful. If your home's entry or wardrobe is a cluttered mess of shoes scattered around the floor, you need this shoe organiser. Get yours today!
