

Neck Traction Pillow Rest Cloud Support Neck Stretcher

RRP: \$64.95

Crafted from soft, comfortable, yet dense foam, its ergonomic contours guide your neck and upper body. Its V-shaped curvature cradles your neck while massage nodes may help relax the affected area.

Just lie down on your back and position your neck on the pillow. Allow gravity and the weight of your head to stretch your anterior neck muscles and upper shoulders. Next, lift your arms and place them on each side of your head to gently extend the stretch. You'll find that the foam conforms to the contours of your neck, making it comfortable to use.

Features and specifications:

- Material: Foam
- Colour: Blue
- Massage nodes: 6
- C-curvature moulds
- V-shaped top cradles your neck
- Raised massage points
- Conforms to your neck over time
