

1.8M Warehouse Shelving Racking Steel Pallet Garage Shelves Metal Storage Rack

RRP: \$204.95

Spring is a great time to organise, and there's no better organisation solution than this storage shelving system from Randy & Travis Machinery. With a 175-kilogramme loading capacity per tier, this rugged storage rack can hold your heaviest items. It's perfect for your garage, your rumpus room, or your kids' bedroom. With its neutral silver and industrial-chic looks, it can even look at home in your kitchen. And, it's the perfect way to organise your heavier belongings in your walk-in wardrobe. Its boltless construction makes adding or subtracting shelves a breeze.

With five tiers of vertical storage space, this shelving can free up tons of floor space in your home or workplace. Crafted from galvanised iron and heavy-duty MDF board, this shelving is built to last for years to come. Its sturdy construction will hold up under everyday use – and it's corrosion-resistant, too, so you can use it in your laundry as well. Its non-slip rubber feet keep it in place and protect your floor from scratches and scuffs. It's easy to assemble – and comes with instructions, so even if you're a newbie to the DIY world, it'll be a breeze to install. So don't put off your spring organisation any longer. Order your shelving rack today!
